

The 12 Leadership Derailers

How to dodge derailers that sabotage fearless careers

Key messages: Leadership, Performance, Engagement, Influence

We all act with the best intentions. But what happens when our inside intentions are not conveyed to others by our external behaviour? It's harder to influence, our teams don't respond well, our fearless career can stall... We can be derailed very fast!

Corrinne gives the audience speed overviews of the 12 leadership derailers, drawing laughter, insight and sometimes some uncomfortable squirms as people recognise themselves and others.

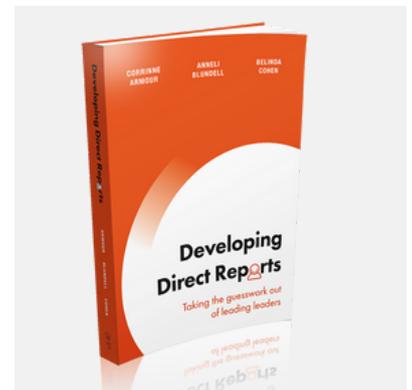

Consider the leader whose intention is to support his team and maintain a high standard and yet is seen by his line manager and team as a micromanager. Performance suffers. Derailed!

This keynote draws on Corrinne's book 'Developing Direct Reports: Taking the guesswork out of leading leaders. She shares immediately actionable insights to help you fearlessly face your derailer and reach your leadership potential.

IN THIS KEYNOTE CORRINNE WILL SHOW YOUR PEOPLE HOW TO:

- Identify and dodge 12 common leadership derailers
- Recognise and fearlessly face the derailer that most limits their own leadership
- Create improved relationships and build greater influence
- Lead strong team performance
- Accelerate their career by aligning behaviour with intention

Fearlessly face what derails you. Lead with intention.

Corrinne's level of connection with the audience was instantaneous. She was able to hit the right chord quickly. 90 leaders from across the David Jones business were engaged in understanding their own 'leadership derailers' and took away strategies to improve their leadership.

Group General Manager - Retail Operations,
David Jones

This was the best session of my day. Great thought-provoking content presented in a fun and relatable way.

EducatePlus Auckland NZ

First session on a Friday with the conference dinner the night before is a difficult slot, yet Corrinne had the audience captivated. She brings energy and enthusiasm to her presentations and pre-conference engagement.
