

Corrinne Armour CSP – AV Rider

Keynote Speaker | Fearless Leadership®

Live Events

Corrinne's keynotes are high energy. She tends to move around the stage - and often the audience – so this places additional emphasis on having the right AV set up and space on the stage.

Corrinne prefers to bring her own computer (Macbook Pro) with adapters and her own clicker. She runs her presentations directly from PowerPoint.

She is also happy to provide you with a copy of the presentation two days in advance, so it can be pre-loaded on your equipment. Her presentations will often include video, so she will advise you which slides should be checked for functionality in advance.

Corrinne always travels with a back-up on a USB drive, so all bases are covered.

For optimal impact, Corrinne's presentations at live events require:

- lapel or headset microphone
- high definition screen projector
- good quality audio system
- 2 bottles of water

Virtual Events

Corrinne has a studio setup and inhouse support. She will work with you to understand the outcomes you are seeking for your online event, and how her keynote can best support you to achieve that.

Photography and Recording

If the event has professional photography, and/or audio/video recording, Corrinne's consent must be obtained in advance, and she will request that photos and videos of her speaking be provided for marketing purposes.

If you have questions or need anything further, please contact Corrinne directly on 0414 742 557 and corrinne@corrinnearmour.com or Sheryl Tудtud, Corrinne's Business Manager on sheryl@corrinnearmour.com.

Thank you.
